

# Auditions Criteria

At an audition, you're going to be seeing lots of people perform, so you shouldn't expect yourself to remember all the finer details! By having a criteria that auditionees can be marked against, it means you're saving work for yourself later.

Under your criteria, you can create a list of non-negotiables or 'nice to haves' that you can tick off as people perform- this way, auditionees are treated fairly across the board and you're ensuring that your criteria is the same for every person that walks through the door on the day!

You don't have to use our template if you don't want to, but it gives you a guide of how you can record auditions in a time-effective way!
